**BePink's girls wear the light blue jersey:
Dalia Muccioli will participate to the European championship, Giulia
Donato wins the bronze medal in Anadia.**

Good news for BePink: Giulia Donato and Dalia Muccioli, both Italian champions in different specialties, have been chosen to participate to the European championship.

Giulia Donato raced in the track championship in Anadia, Portugal, just a few days ago, winning a bronze medal in the team pursuit and ranking 8th in the omnium race, the same race that granted her the title of Italian champion. A good performance.

The next athlete that will wear the light blue jersey of the Italian national team will be the Italian road race champion, Dalia Muccioli. She was chosen by the head coach Edoardo Salvoldi to participate to the European Under-23 Road Championship.

The athlete will therefore be competing in Czech Republic, in Olomouc, on July 20th.

Dalia and her teammates will face a difficult race with lots of ups and downs, covering 126 kilometres.

“Being chosen for the national team is always a special thing, especially for such young athletes and even more so if they can take part in an important international event such as the European championship. Dalia's physical condition is good and improving, and she showed it recently at the Giro Rosa” said the sporting director, Walter Zini.
