**Ladies Tour of Qatar: good start of the season for BePink.
Simona Frapporti always protagonist.**

Good results for BePink, during its first official appointment in 2013, the Ladies Tour of Qatar. Simona Frapporti obtained three important results on the roads of the Emirate. She demonstrated that she's in shape and, stage after stage, she showed that her condition is improving. In the first stage she ranked seventh, whereas in the third stage, the longest and hardest one, she crossed the finishing line in the sixth position. The fourth and last stage has been raced yesterday, from the Sealine Beach Resort to the Corniche in Doha. During this stage, BePink's athletes have been protagonists once again: Silvia Valsecchi, along with eight other athletes, led a breakaway right up to a few kilometers before the finishing line. After an animated, quick final sprint, Simona ended her race in the fifth position.

This start of the season confirmed the good physical condition of Simona and her teammates. "It was a good experience", stated the team manager, Walter Zini. "It was an important occasion to perfect our preparation and to compete with international athletes to start this 2013 season on a good note".
