World Track Cycling Championship: Giulia Donato, Simona Frapporti and Malgorzata Wojtyra are going to Minsk!

The dream comes true!

BePink will be at the World Track Cycling Championship with two Italian athletes and a Polish one: Giulia Donato, the omnium, keirin and Olympic speed Italian champion, Simona Frapporti, the individual pursuit and Olympic speed champion and Malgorzata Wojtyra, that has already won two six day races this year, one in Bremen and the other in Berlin.

The World Championship will take place in the Minsk Arena, in Byelorussia, from the 20th to the 24th of February.

The whole team is really happy about this convocation.

"Participating in the world track championship was our first goal for this season", Walter Zini said. "Having three athletes of different nationalities that will participate in this event makes us very proud and confirms, once again, the internationality that is BePink's trademark".

24 year old athlete Simona Frapporti, about to participate in her first World Championship, said: "I worked really hard to make my dream come true and now I'm ready to leave for Minsk. I'm excited and thrilled! I also want to thank BePink for this opportunity, as well as all the National team and my family for the support. Both my brothers Marco and Mattia have participated in a World Championship, so now it's my turn!".

Giulia Donato, the youngest of the three, who is also about to take part in her first World Championship, stated: "I'm excited and happy about this first and very important convocation, I'll do my best as usual".

Finally, these were the words of the strong and expert Polish athlete Malgorzata Wojtyra: "the World Championship is a special race, I worked very hard for it and I hope to obtain a good result".

In Minsk, Simona, Giulia and Malgorzata will each race with their own national team and surely they will all do their very best to make their nations proud.
