The Thüringen Rundfahrt starts on a good note Alena Amialiusik places 5th and she's the best young rider

The first stage of the German race started on a really good note for BePink. Alena Amialiusik placed 5th and she now leads the young riders' classification.

The route was only 64 kilometres long: a short, but very fast paced race. Right at the end, the athletes sprinted towards the finishing line and Alena managed to perform well, ending right in the middle of the top ten.

She now places 5th in the general classification as well, with only 17 seconds between her and the leader.

Today's stage will cover 122 kilometres, starting and ending in Hermsdorf.

Alena will wear the white-and-blue jersey of the best young rider, and thanks to this important result the whole team will be inspired to work even harder. Determination, passion and strength will be the keys to success in this race.

Monza, 16.01. 2013
